Re: Free transcript available of the hascross's discussion meeting held with Prof. Mike Norton.
EASAC as a guest speaker
Date June 10, 2023

Dear Sirs

Our most welcome and frequent guest at hascross, Mike-san (Prof. Mike Norton) kindly presented us a lecture in Japanese for citizens on the key issues to solve the problem of :

Global Climate Change and Biodiversity Crisis

in an online discussion meeting hosted by Toshi Matsumura, hascross, on February 22, 2023.

Mike san

The contents of the meeting have been transcribed and compiled in a meeting record, both in Japanese and English languages. They are now presented in PDF format free of charge via Internet.

Those who want to see or download them, are advised to visit Hascross home page (<https://hascross.yokohama>) and further the site of 'health science information'.

If you have any difficulty in finding the record files, please visit 'Contact' site.

Colored hard copies of the meeting records are available with some charges, for which you are requested to give us a note at 'Contact' site,

Mike-san's title: Professor Michael G Norton, Environment Programme Director

European Academies' Sciences Advisory Council (EASAC)

Health and Science Crossroad (an independent science café)

Representative: Hiroko Sasaki PhC (Secretary of this meeting)

Vice Representative: Toshiharu Matsumura PhD

(Host speaker of this meeting and the editor of meeting record)
